

Privacy Policy

Introduction

The Tarot Library does not collect any personal information. As we don't collect any personal or sensitive data from you, this privacy policy explains what that means.

What Information Do We Receive?

We don't collect any personal or sensitive information about you. Our app is designed to be a simple and enjoyable experience without requiring you to share any of your personal details.

How Do We Handle This Limited Information?

Since we don't receive any personal data, we don't have any processes in place for handling such information. Rest assured that if we ever do start collecting personal data in the future, we will update this policy to reflect our new practices and ensure they are compliant with relevant laws and regulations.

How Do We Use This Limited Information?

We use none of the non-existent information we receive (which is zero!) for any purpose. Our app is designed solely for entertainment or educational purposes, and we don't leverage any user data to personalize your experience or offer targeted advertisements.

Disclosure of Information

As mentioned earlier, we don't collect or store any personal information about you. Therefore, we won't be disclosing any such information to third parties. If we ever start collecting personal data in the future, we will only share it with third-party service providers who need access to this information to perform specific services on our behalf.

Your Rights

As we don't collect personal data, you won't be able to exercise any rights related to accessing, correcting, or deleting this non-existent information. If we ever start collecting personal data in the future, we will comply with applicable laws and regulations regarding your rights over that information.

Changes to This Policy

We may update this privacy policy if our app's functionality changes or new laws and regulations are introduced that require us to handle user data differently. We will notify you of any significant changes to this policy by posting an updated version on our website or within the app.
